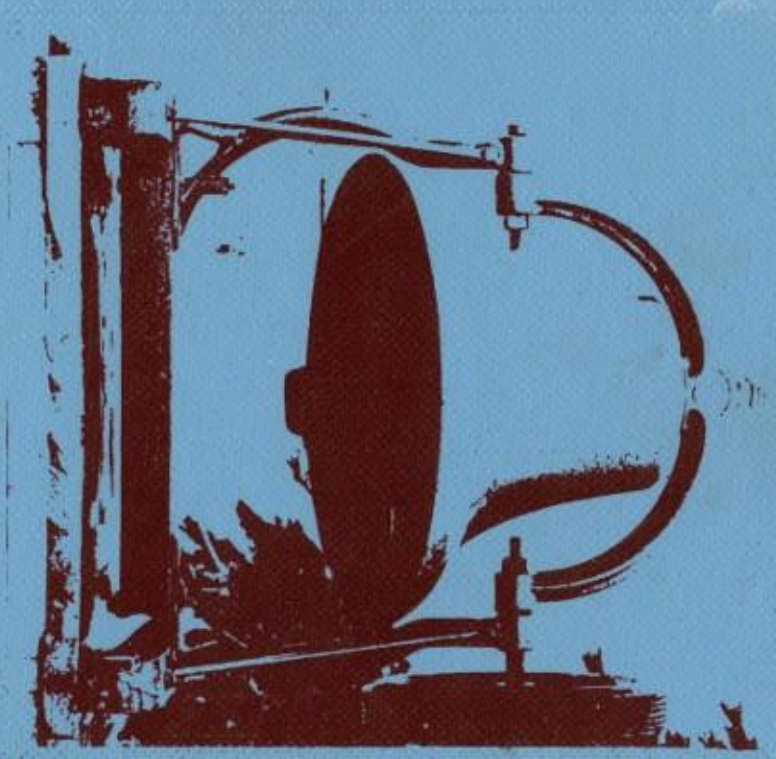
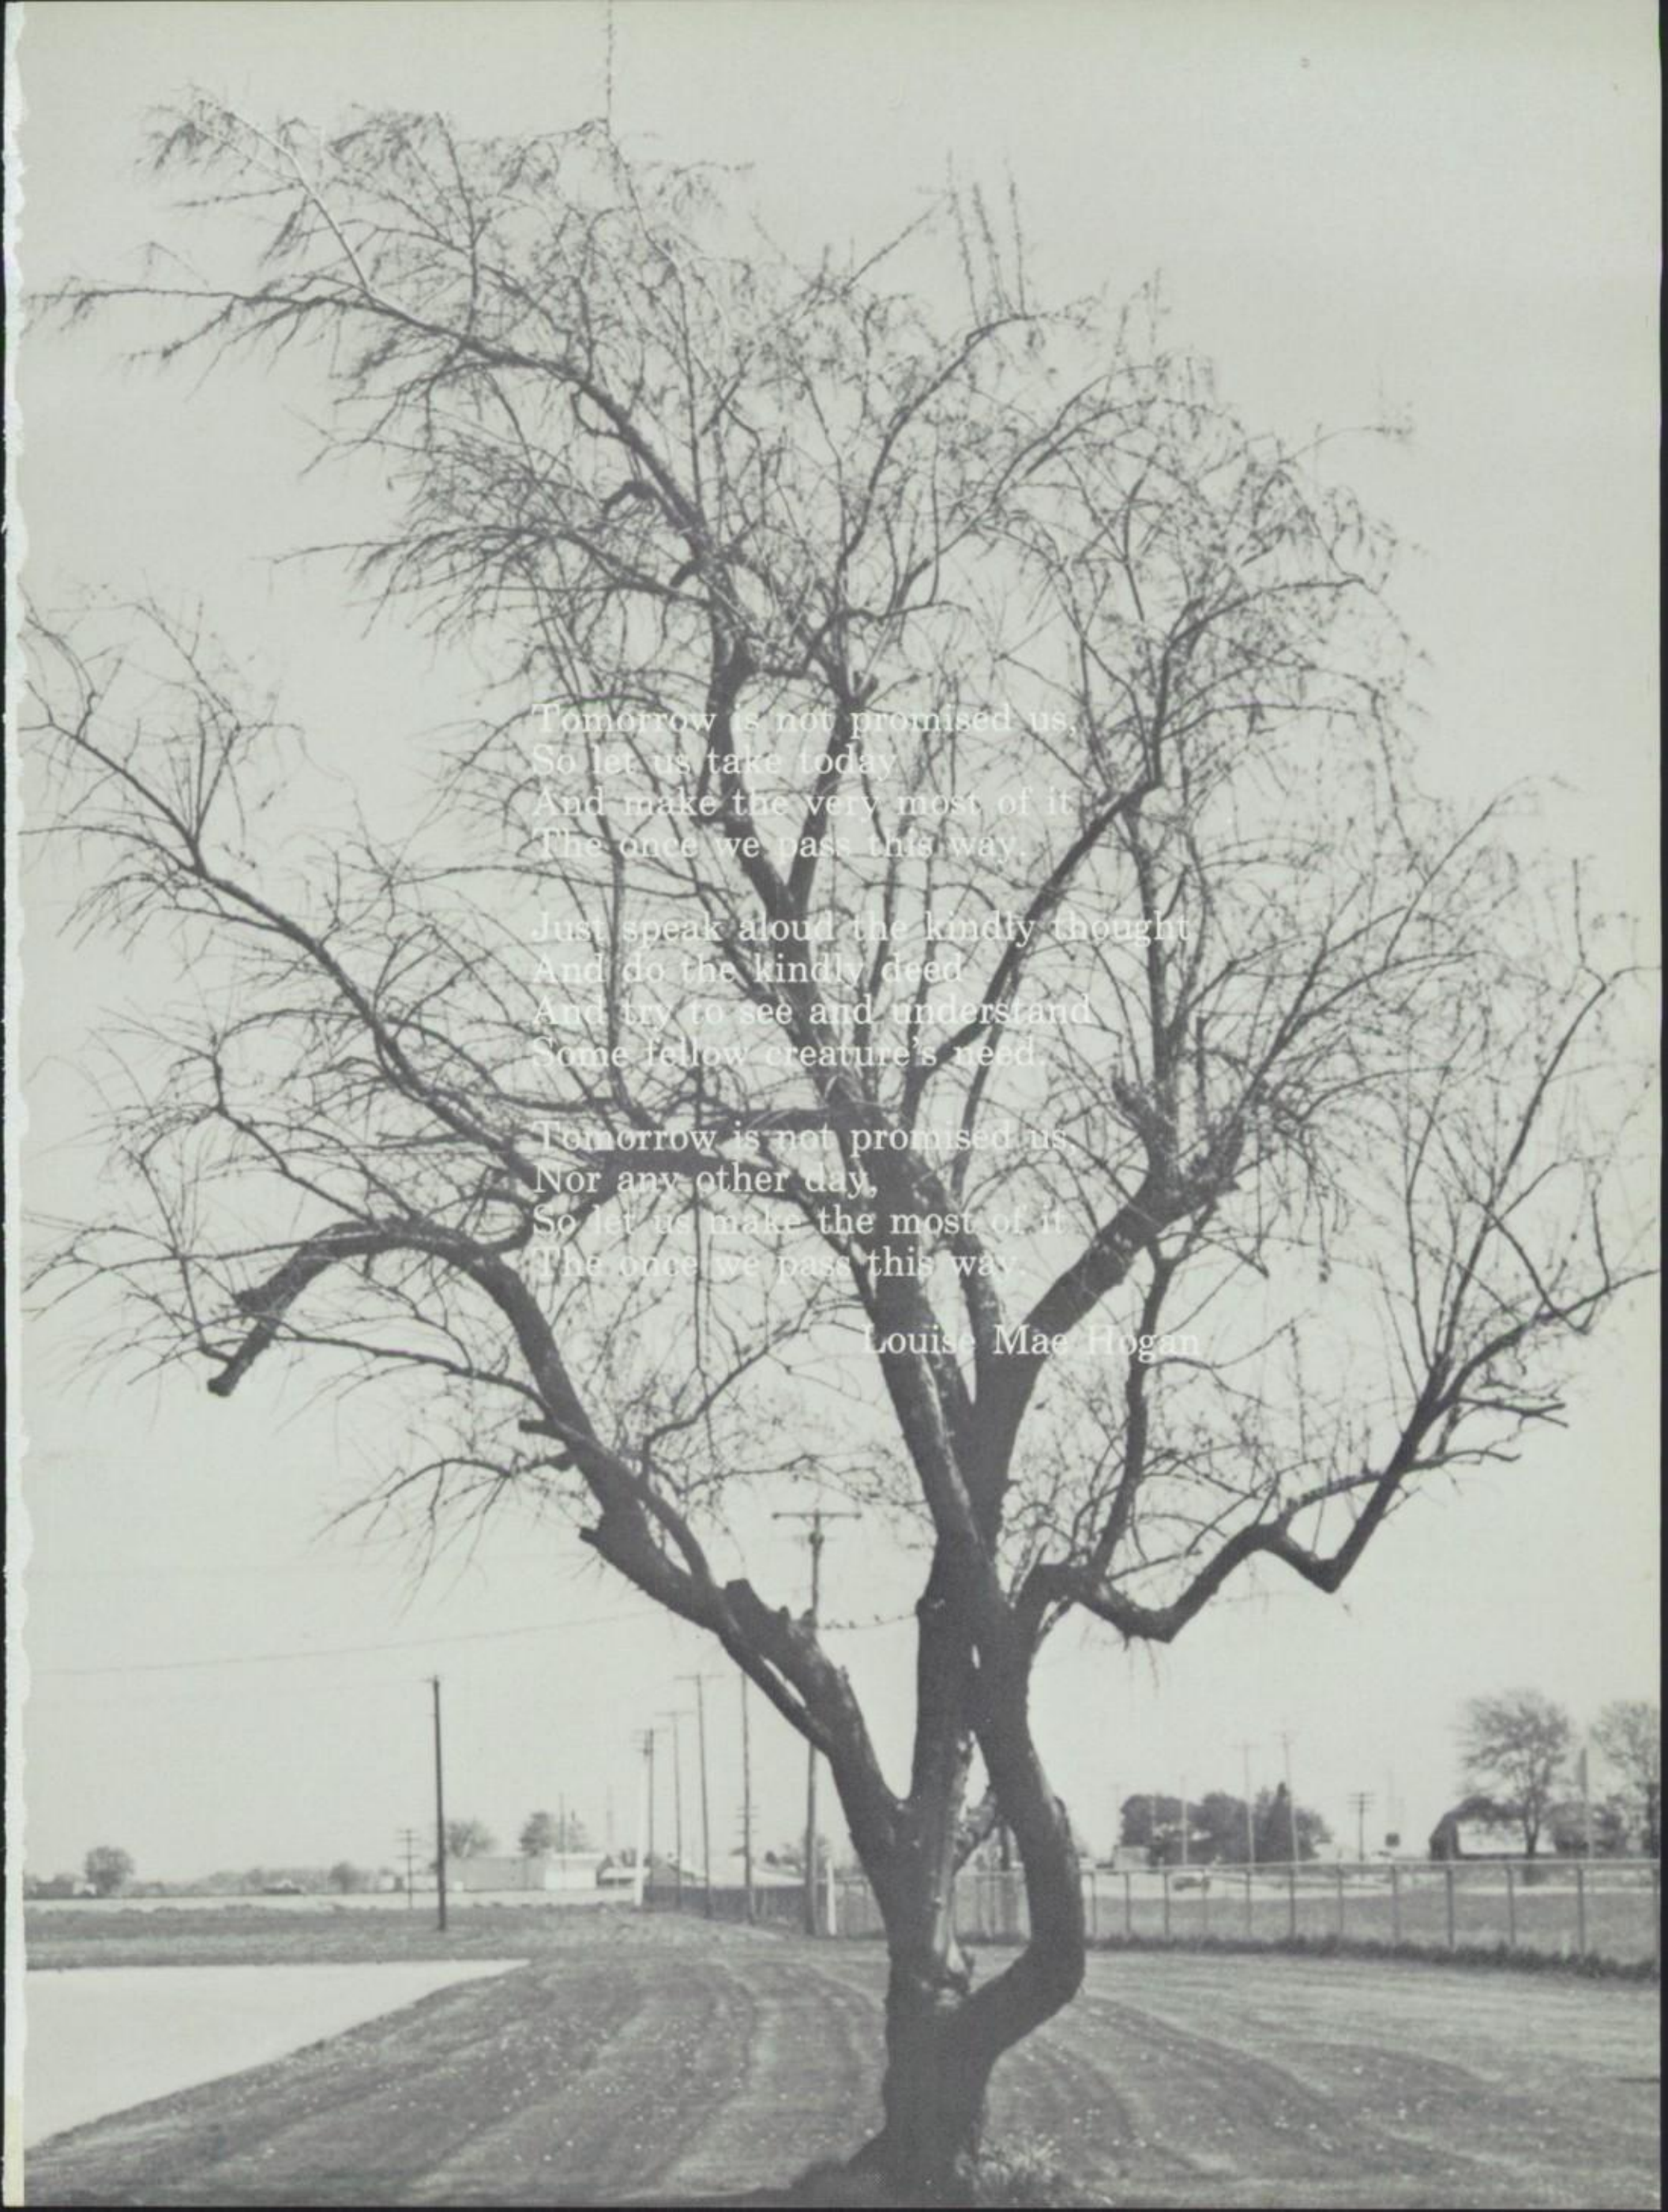
Beaver Lake





Tomorrow is not promised us,
So let us take today
And make the very most of it
The once we pass this way.
Just speak aloud the kindly thought
And do the kindly deed
And try to see and understand
Some fellow creature's need.
Tomorrow is not promised us
Nor any other day,
So let us make the most of it
The once we pass this way.

Looking toward the future . . .

As supplies of natural gas and oil continue to grow scarce, electricity will play an even larger role in meeting the expanding energy needs of our society. That's why Toledo Edison is developing new sources of energy, such as nuclear power, and planning ahead for the power needs of 1990 and beyond.

We're determined to meet this challenge and provide the best possible electric service for your generation and others that follow.
